SDG1 No Poverty

1.4.2 Does your university as a body provide financial assistance to the local community assisting the start-up of financially and socially sustainable businesses?

Al-Mustaqbal University assists local micro-entrepreneurs througha small-projects support campaign, a Business Administration initiative that trains entrepreneurs and connects them with funding entities, and a Technological Incubator that develops digital solutions for local organisations and small and medium enterprises.

Entrepreneurship initiative linking small-project owners to funding

Launched on 28 November 2025 for small-project owners among students, graduates and community members, the initiative offers training workshops in feasibility studies, financial resource management and e-marketing, plus professional consultations. It also connects entrepreneurs with funding entities, business incubators and private-sector partners to create jobs and support emerging projects.

Technological Incubator delivers digital solutions for local organisations

From 1 to 30 June 2026 the University's Technological Incubator ran the "Future Innovators" innovation camp, in which ten students and one postgraduate student completed 14 projects and smart digital platforms in one month. The projects are designed to serve government departments, small and medium enterprises and private-sector organisations, and include a mini security operations centre for small and medium enterprises and a real-estate management and marketing platform.
