University : **Al-Mustaqbal University**

Country : **Iraq**

Web Address : **https://uomus.edu.iq/**

17.2: Relationships to support the goals

17.2.4 Collaboration for SDG best practice

1- Al-Mustaqbal University Strengthens Its International Presence in 2025 through Distinguished Global Scientific Participation

Al-Mustaqbal University recorded a remarkable international presence through active and distinguished participation in a wide range of global academic events and forums, These participations included scientific conferences and academic gatherings held in several countries, including the United States of America, England, Germany, France, Sweden, Switzerland, Belgium, Turkey, Morocco, Tunisia, Romania, Italy, as well as the United Arab Emirates, Jordan, and other countries Al-Mustaqbal University's contributions to these events ranged from presenting scientific research and organizing workshops to participating in panel discussions and exchanging academic and research expertise. This has contributed to strengthening the university's scientific and research standing at the international level and opened broad prospects for joint cooperation with prestigious universities and research centers around the world.

9- **Membership in the Sustainable Development Goals Accord (SDG Accord)**

Al-Mustaqbal University has obtained membership in the Sustainable Development Goals Accord, reflecting the university's commitment to supporting and promoting global sustainable development goals. This accord aims to encourage universities and colleges to work together to achieve these goals through education, scientific research, and sustainable practices .

The SDG Accord

The University and College Sector's Collective Response to the Global Goals

This Accord calls upon we, the world's universities and colleges to embed the Sustainable Development Goals into our education, research, leadership, operations, administration and engagement activities.

We, the SDG Accord Signatories, recognise:

- The indivisible and interconnected nature of the universal set of Goals – People, Prosperity, Planet, Partnership, Peace
- That, as educators, we have a responsibility to play a central and transformational role in attaining the Sustainable Development Goals by 2030

We thereby assert that we will:

- Align all major efforts with the Sustainable Development Goals, targets and indicators, including through our education, research, leadership, operational and engagement activities;
- Aim to involve members from all key stakeholder groups in this endeavour, including students, academics, professional staff, local communities and other external stakeholders;
- Collaborate across cities, regions, countries and continents with other signatory institutions as part of a collective international response;
- Using our own unique ways, inform, share our learning and account to both local and global communities our progress toward the Sustainable Development Goals;
- Annually report on 'how does my institution contribute to the Goals and what more can we do'.

Institution

EAUC Chief Executive Officer:

"Ours can be the first generation to end poverty – and the last generation to address climate change before it is too late."
Ban-Ki Moon former UN Secretary-General

5- Green Education Partnership

As a result of Al-Mustaqbal University's adoption of the slogan "Towards a Sustainable University" and its numerous achievements in realizing the Sustainable Development Goals, which include attaining high rankings in international classifications related to these goals, as well as the university's efforts in scientific research, community service, and quality initiatives related to sustainable development, the university has joined the Green Education program for the first time as a partner with UNESCO to address the climate crisis

Dear new member of the Greening Education Partnership,

Welcome to the Greening Education Partnership!

Thank you for completing the online survey expressing your interest in joining the Partnership. We look forward to working with you and advancing climate change education to get every learner climate ready.

You can now use the GEP visual identity to show your membership Please find here GEP Membership Workspace with relevant documents including working group work plans and a Greening Education Partnership Communication Toolkit and the Visual Identity Guidelines and logo images which members can use.

You will be invited to join GEP meetings and events to collaborate with other members. The Partnership organizes quarterly GEP working group meetings online, an annual hybrid meeting at Climate COPs, and others such as capacity building webinars and thematic meetings. Please see here for the GEP online platform. The virtual lobby will remain open throughout the year, to enable interaction through chat and sharing of resources. Working groups and thematic groups can also organize ad hoc meetings on the platform. Members are encouraged to complete their profiles for networking.
