### 3.3.1: Current collaborations with health institutions

"Reflecting its unwavering commitment to Sustainable Development Goal 3 (Good Health and Well-Being), Al-Mustaqbal University actively fosters strategic alliances with key health authorities, including the Babylon Health Directorate and local hospitals. Spanning through 2027, these collaborative frameworks bridge academic excellence with clinical practice, driving public health advancements, specialized training, and impactful community healthcare initiatives.".

**1- A visit by students of the Anesthesia Techniques Department to Imam Al-Sadiq Hospital – Intensive Care Unit to enhance practical skills**

"As part of Al-Mustaqbal University's ongoing efforts to advance Sustainable Development Goal 3 (Good Health and Well-Being), students from the Department of Anesthesia Techniques conducted a practical field visit to the Intensive Care Unit (ICU) at Imam Al-Sadiq Hospital. During the visit, students observed advanced critical care equipment firsthand, received hands-on explanations from the medical staff on monitoring vital signs and operating life-support devices, and learned essential safety protocols and multidisciplinary teamwork required for high-standard patient care."

## 3- "The Anesthesia Techniques Department organized a field visit to the Babylon Health Directorate / Marjan Medical City."

On Tuesday, February 10, 2026, the Anesthesia Techniques Department at the College of Health and Medical Technologies organized a field visit for its students to the Cardiopulmonary Resuscitation (CPR) Unit at Marjan Medical City (Babylon Health Directorate), under the supervision of academic staff and medical management. The visit aimed to bridge theory and practice by providing students with specialized training and explanations from the medical staff on patient intake, critical condition assessment, and emergency management. Organized in rotational groups to maintain hospital workflow, this initiative supports Sustainable Development Goal 3 (Good Health and Well-Being) by equipping future professionals with essential clinical skills
